

Last year we said good bye to the above unit. After many months of delay, because of COVID related issues, our new unit is nearing completion. To save money we opted to remount the rear portion of the ambulance on a new 2021 Chevrolet, 4-Wheel Drive Chassis. By going this route we saved nearly \$40,000. The cost of the remount was \$98,445.

Below is a picture of our truck in production.

Last year's Capital drive brought in almost half of what we needed for this remount.

Thank You!

Our Paramedics and EMTs at Economy Ambulance need your HELP!!!

Economy Ambulance is a small group of individuals providing you with personalized care. If you have needed an ambulance more than once, there was a good possibility the same crew that took you last time cared for you again. It is like having that old time doctor's office, where we really get to know our patients. To continue this type of care we need your help. Today Economy Ambulance receives NO tax dollars to provide this type of personalized service. We rely on folks like you taking out subscriptions, paying your co-pays, and donating to our Annual Fund Drive. Last year's Fund Drive helped pay for half the Ambulance that is being remounted. In the past we have used these funds for vital equipment. Every dollar from our Capital Drive goes to exactly what it says, Capital Items. Never do we use these funds for operational expenses.

We realize this has been a tough year for everyone. We are asking you to give what you can, but understand if you cannot. Either way our people will care for you, like you are one of our family.

- CPAP Devices

Economy Ambulance cannot do it Alone.

Economy Ambulance is helped daily by our local Police and Fire Departments. We also enjoy a great working relationship with our surrounding ambulance services. It is not out of the ordinary to have an ambulance from Medic Rescue, Valley Ambulance, Cranberry EMS or McCandless-Franklin Park pull up to your door when we are not available. And if you are a subscriber, you are still covered.
