What is an EMERGENCY?

According to the Health Care Financing Administration (HCFA) the term "EMERGENCY" refers to a sudden onset of a medical condition manifesting itself by symptoms of such severity (including severe pain) that the absence of immediate medical attention could reasonably be expected to result in the following:

- Placing the patient's health in serious jeopardy.
- Serious impairment to bodily functions/
- Serious dysfunction of any bodily organ or part.

Economy Ambulance Service, Inc. provides:

- 24 hour ambulance service for you
- Reduced rate non-medically necessary transportation.
- Submission of insurance claims for you.

- THIRD PARTY BILLING -

How does Third Party Billing Work?

Insurance companies will provide coverage for emergency ambulance services, but they are not in the business of "transportation." Every time you use our ambulance the billing department submits a claim on your behalf. Your insurance company will determine if it was deemed "medically necessary" to go to the hospital by ambulance. The insurance company processes payment for the "emergency" services rendered. Economy Ambulance Service accepts this payment. *** *Non-members will be billed for the entire balance due.*

If a claim is submitted and it is denied by your insurance company as not "medically necessary" (i.e. non-covered service or alternative means of transportation should have been utilized) members will be billed at a reduced rate. **Non-members will be billed for the entire amount.**

Should I subscribe to Economy Ambulance if I have Medicare or other insurance?

Medicare and most insurance plans will not cover 100% of the bills incurred for ambulance service.

Services not covered by the subscriptions are non-emergent such as:

- Hospital Discharges
